School Overview

Hamilton State School is a welcoming and supportive small school with four multi-age classes. We offer a unique approach to state school education in Brisbane by providing engaging pedagogy within an environment where the focus is on each individual child. Each child is known and valued.

Hamilton State School is committed to providing quality educational experiences to meet the needs of all students to pursue higher levels of educational achievement. We encourage all students to participate to the best of their ability in all aspects of school life. At Hamilton all students are 'switched on to learning', challenged and inspired. Our expectations are 'We Are Safe', 'We Are Responsible', and 'We Are Respectful'.

We aim for all students to become active and informed citizens who are well prepared for the challenges of a changing global society. We acknowledge the role of the school within its broader community context as a place of learning and educational leadership.

The School Annual Report is prepared each year to detail the various aspects of school life.

This report details our achievements in 2015, and charts the school's progress alongside the school's improvement agenda. This document contains statistical achievements for 2015, as well as the information including the opportunities available to students of Hamilton State School. This report also outlines Hamilton's direction in providing for our students a quality education in a great small school.

Principal's Forward

Introduction

School Progress towards its goals in 2016

Hamilton State School completed its Quadrennial School Review in 2016. As part of this process the school consulted with parents, staff, students and the wider community through surveys and P&C meetings. A new four year Strategic Plan was developed with our "2020 Vision".

Hamilton State School has continued to implement a range of initiatives to support the goals identified in the 2016 Annual Implementation Plan.

Implementation of the Australian Curriculum
 Implementation of whole school pedagogical practices
 Using data to inform teaching practice
 Instructional Leadership with a focus on school performance

A key priority is to continue to implement the Australian Curriculum in English, Mathematics, Science, Health and Physical Education, Economics and Business and Civics and Citizenship - History and Geography. To accommodate the implementation of the curriculum, an up to date Whole School Curriculum Plan was written and published. The implementation of a Whole School Assessment Schedule, with targets, allowed us to monitor student performance. Changes in pedagogical practices and increased access to digital technology including iPads, interactive whiteboards and student laptops improved engagement of students.

Characteristics of the Student Body

Overview

Hamilton State School is unique in that it is a small school within inner Brisbane. Families who attend our school see the benefits of quality education in a great small school, where the focus is on each individual child and their family. Each child is known and valued. The school prides itself on being multicultural school, having nearly 40% of our students with an EAL/D background.

We provide a high level of differentiation in our classrooms which allows our teachers to give academic extension or support depending on the individual. Our family-like atmosphere is but one appealing attribute of our school.

How Information and Communication Technologies are used to Assist Learning

At Hamilton State School, teachers are committed to the continual development of their digital pedagogy and providing learning environments where their learners' knowledge is deepened, transformed and created through the use of digital tools, resources and environments.

Networked computers are located in classrooms and in our Library. Wi-Fi access is available in the Library and all teaching blocks. Interactive Whiteboards/Interactive projectors are used in every classroom to assist with curriculum delivery across all Key Learning Areas. Laptops and iPads are used extensively throughout our school.

Hamilton State School is currently updating IT infrastructure to allow for faster connectivity as well as having an effective laptop replacement schedule to ensure resources are kept up to date.

Social Climate

Overview

The social climate at Hamilton State School is positive, with high parental support and high expectations. Many activities are planned throughout the year to build community and a sense of belonging to the community and support the social and emotional learning of students.

Behaviour and expectations are aligned with the P&C approved, school Responsible Behaviour Plan. The provision of quality teaching and learning experiences at Hamilton State School is dependent on students and staff members striving to our high expectations and the maintenance of a supportive school environment. Students are regularly rewarded with many incentives, including certificates and assembly and newsletter celebrations.

In 2017 we have implemented the You Can Do It! program to help improve social and emotional intelligence across the school. Each Friday, the school is broken into small groups and have an explicit lesson on one of the 5 keys to success. Weekly awards and behaviour comments on report cards are also linked to the program.

Parent and community engagement

The staff members of Hamilton State School are committed to maintaining productive partnerships with parents. Parent feedback and input was sought via our P&C Association, parent teacher meetings, school events, the school newsletter and daily conversations with community members.

The P&C association is actively involved in Special Days and Evenings, Fun Foods Fridays, Uniform Shop and Fundraising.

At the school level parent involvement is encouraged at Parent Information Evenings, Parent Teacher Interviews, workshops, assemblies, performances and sporting events. We actively work with parents around differentiation and support provided to students.

Parents are welcomed as classroom helpers in a variety of roles and regular communication between staff and parents is an integral part of life at Hamilton.

Respectful relationships programs

The school has developed and implemented a program or programs that focus on appropriate, respectful and healthy relationships.

School Disciplinary Absences

The following table shows the count of incidents for students recommended for each type of school disciplinary absence reported at the school.

SCHOOL DISCIPLINARY ABSENCES			
Type	2014*	2015**	2016
Short Suspensions – 1 to 5 days	0	1	6
Long Suspensions – 6 to 20 days	0	0	0
Exclusions	0	0	0
Cancellations of Enrolment	0	0	0

* Caution should be used when comparing post 2013 SDA data as amendments to EGPA disciplinary provisions and changes in methodology created time series breaks in 2014 and 2015.

**From 2015, Exclusion represents principal decisions to exclude rather than recommendations for exclusion. From 2015 where a principal decided not to exclude, a small number of recommendations for exclusions have been counted as a long suspension. Exclusions, Cancellations and Long & Charge Suspensions may be upheld or set aside through an appeals process.

Environmental Footprint

Reducing the school's environmental footprint

At Hamilton State School we have water tanks that supply the school with water for cleaning and watering our grounds. We have fans in all rooms to reduce our usage of electricity for air conditioning.

Staff and students are encouraged to turn off lights when leaving rooms, shutdown computers or set to stand by, turn off power outlets and open windows to utilise natural airflow rather than airconditioners and fans.

The increase in electricity usage is attributed to a significant increase of Information Communication Technologies within the classroom and additional programs that require additional classrooms to be used.

ENVIRONMENTAL FOOTPRINT INDICATORS		
Years	Electricity kWh	Water kL
2013-2014	36,513	188
2014-2015	17,771	138
2015-2016	42,491	321

The consumption data is compiled from sources including ERM, Ergon reports and utilities data entered into OneSchool by each school. The data provides an indication of the consumption trend in each of the utility categories which impact on the school's environmental footprint.

Description of how non-attendance is managed by the school

Non-attendance is managed in state schools in line with the DET procedures, *Managing Student Absences and Enforcing Enrolment and Attendance at State Schools* and *Roll Marking in State Schools*, which outline processes for managing and recording student attendance and absenteeism.

Non-attendance is managed in state schools in line with the DET policies, SMS-PR-029: Managing Student Absences and SMS-PR-036: Roll Marking in State Schools, which outline processes for managing and recording student attendance and absenteeism.

Class rolls are marked twice each day. The roll is marked shortly after 9am and then again at 1.45pm, immediately following second break. Unexplained absences are followed up by phoning parents and caregivers to check on the welfare of the student. Late arrivals are recorded on a sign in book situated in the office. Frequently arriving at school late leads to a discussion with parents/caregivers about the importance of students being at school on time in order to orient their learning for the day. Absenteeism is also monitored. If a student is absent for more than three consecutive days without explanation, the parents/carers are called to seek an explanation and establish the timing of a students' return to school. Repeated short periods of absence for whatever reason are discussed with parents by the class teacher or the Principal. Prolonged periods of non-attendance without a satisfactory explanation are dealt with according to EQ policy by the Principal.
